

ISLAND Wai

Pre-Approved Grant Relationship Fiscal Sponsorship — ISLAND Wai Bottled Water Project

ISLAND Wai Fiscal Sponsorship

ISLAND Wai, a bottled water company dedicated to community outreach in Fiji and One Globe Foundation (OGF), a 501(c)3 nonprofit public benefit organization, are teaming to implement a proven and intelligent fiscal sponsorship program. The program has been crafted to support three targeted areas of need throughout the islands of Fiji: **Education**, **Healthcare**, and **Sustainable Infrastructure**. The community outreach effort is aimed at re-

“**THE BENCHMARK FOR CORPORATE-COMMUNITY RELATIONS, ECONOMIC, ENVIRONMENTAL AND SOCIAL INFRASTRUCTURE.**”

emphasizing the importance of corporate-community relations and ultimately hopes to set new standards and expectations for social responsibility on the corporate, for-profit level. Initial sponsored efforts will focus on programs throughout the islands of Fiji with plans of establishing a replicable economic model for continued outreach efforts worldwide.

One Globe Foundation

Incorporated in 2007, One Globe Foundation’s (OGF) launch initiative was an alliance with United Nations World Environment Program in support of World Environment Day.

OGF’s belief in leveraging entrepreneurial ventures to solve environmental and social infrastructure problems has led them to create a self-sustaining, integrated development model that is designed to address complex problems through **community, construction and capital symbiosis**, now called **O.A.S.I.S. – Optimized Assets and Sustainable Infrastructure**

Solutions. This proven, successful model has been adopted and implemented over the last decade serving over **2 million people**, nearly **200 for-profit enterprises**, in more than **300 communities** – and has attracted countless supporters including the Bill and Melinda Gates Foundation.

ISLAND Wai has adopted One Globe’s O.A.S.I.S model and are set to launch in Fiji - offering the ISLAND Wai bottling plant as the catalyst project to both investors and philanthropists who are committed to not just **raise the tide**, but to initiate the **sea change** that inspires global transformation.

How It Works

The Fiscal Sponsorship Program is a pre-approved grant relationship between ISLAND Wai and OGF, where ISLAND Wai has engaged OGF as a fiscal sponsor in an effort to spend more time on mission-related work and fundraising. Contributions to the OGF/ISLAND Wai Sponsorship are designed to provide ISLAND Wai the resources necessary to achieve its outreach efforts by ensuring that the ISLAND Wai bottled water project will become an economic catalyst for social change in the islands of Fiji.

Regarding the long-term sustainability for solutions in local Fijian communities, the ISLAND Wai bottling facility is an integral part of the OGF’s model, but the sustaining programs become stand-alone enterprises – an innovative piece of the OGF model that allows its championed projects to not only be self-sustaining, but scalable. By leveraging the success of the “for profit” enterprise and 100% of its net profits focused on community needs, skills, strengths and traditions, ISLAND Wai is

- ISLAND WAI PROJECT
• Economic Catalyst
- VENTURE PHILANTHROPY
• Social Foundation
- SUSTAINABLE CHANGE
• Community Relations

poised to become the catalyst economic system that will provide education, healthcare, housing, essential infrastructure, and livelihood trainings. These programs will allow Fijian stakeholders to launch sustaining, stand-alone enterprises that fit the needs of their community. It’s OGF’s unique, proven solution to global development that has resulted in a wide range of sustaining enterprises.

For funders, the Fiscal Sponsorship also offers a low-risk way to test new ideas by providing fledgling projects with tangible assets, with a high level of regulatory and financial oversight. Increasingly, fiscal sponsorships are also viewed by project leaders and funders alike, as a sustainable, cost-effective way to manage a charitable initiative.

HEALTHCARE	EDUCATION	INFRASTRUCTURE	
			<p>Cyclone Winston Tens of thousands of people were living in shelters and 134 schools were destroyed after Cyclone Winston in 2016.</p>

Nearly half the people in Fiji do not have access to clean drinking water

Deliver a Quality Product, Positively Impact Lives & Communities

Fiji appears to be heaven on earth, but for people who inhabit Fiji, the realities of life are very different from the idyllic pictures of tourist brochures and postcards. For most Fijians, life is hard and living is even harder.

ISLAND Wai is positioned as a premium artesian bottled water company and will bottle its quality product at the source in Fiji, from one of the last remaining virgin eco-systems on the planet. ISLAND Wai remains committed to conducting business with a purpose and intends to remain mission-driven, focused on re-emphasizing the importance of corporate-community relations by supporting/contributing to venture-philanthropic programs in the islands of Fiji — **But we need some help.**

Help ISLAND Wai and One Globe Foundation raise a first-phase, **\$3,000,000 USD**, to assist ISLAND Wai in becoming the foundational economic system that will support existing local outreach programs in Fiji such as

Resource Development Institute and Fiji First Initiative and other future programs that promote the advancement of Education, Healthcare and Sustainable Infrastructure. Funds raised will be used to conduct the necessary tasks required to position ISLAND Wai as an “Investor-Ready” development opportunity, so that it can ultimately raise the remaining funding necessary to execute on its asset acquisition and marketing/distribution plan.

The detailed pre-development tasks are listed below, budgeted with time and financial contingencies and no major activities/tasks that are time sensitive or are critical to the success of the development.

Future Outreach

ISLAND Wai is a gateway project that will be the catalyst and economic system foundation for many other programs dedicated to positive social change
